

SCHEDULE B

Training Services Terms

In addition to the terms and conditions in the Terms to which this Schedule B is attached, the following shall apply only to Training Services, subject to the GENERAL TERMS AND CONDITIONS FOR THE SALE OF GOODS AND SERVICES:

If Services to be provided by Seller include Buyer training, Buyer shall be responsible to select from its employees those trainees who possess the requisite technical skill, experience, and language fluency appropriate for comprehension of the training and associated training materials ("Attendees"). Training curriculums and associated materials are general in nature and are intended only to supplement Attendees' prior knowledge. Training does not replace Buyer's existing practices and procedures regarding equipment operation, safety, and maintenance. The equipment discussed during trainings and in training materials may differ from or may only partially represent the equipment which Buyer or its Attendees operate, service or maintain. It is Buyer's responsibility to ensure that Attendees shall not operate or work on or around any specific Buyer equipment without familiarizing Attendees with all applicable safety, operating and maintenance instructions and procedures relating to Buyer's specific equipment. Seller makes no warranty or guarantee that Buyer's representatives who attend any training will achieve any level of proficiency or ability to use the Goods or Services and ensuring that such individuals can do so safely and effectively is the sole and exclusive responsibility of Buyer. If requested by Buyer, Seller shall issue to Buyer's representatives certificates stating that they have attended the relevant training. Such certificate shall in no way certify the competency of the work of Buyer's representatives.
